

About MULTiWAY

MULTiWAY is an Australian-owned company that prides itself on providing quality imported products at competitive prices.

We work closely with healthcare and equipment providers, prescribers and end-users, to identify the latest technologies and changing needs of the market and our clients.

As specialists in sleep systems, we believe that a bed is an important aspect of our daily care. It is a place where rest and recovery should be comfortable, therapeutic and secure.

The BodyAdjust Sleep System is designed to blend into the home environment with ease, yet not compromise on your therapeutic needs. Multiple positioning options will assist you with independent mobility, improve sleep quality, and comfort levels.

Mattress Options

Active

A multi-layered mattress giving you all the benefits of contouring foam, the breathability of cotton and bamboo fibres, and the comfort of pocket-springs. Ideal for those requiring minimal partner disturbance through the night.

Comfort

This supple 2-layer combination foam mattress supports and conforms to the contours of your body closely. The natural latex upper-layer allows air to circulate and improves immersion to assist with pressure redistribution.

Mattress Overlay

A beautiful, high quality 50mm memory foam overlay to immerse into - providing additional comfort to your existing mattress.
